COLE School Experts

Parker IT

Expert support for digital transformation and beyond.

Collaborative Software
Professional Services for Schools

STREAMLINE YOUR PROCESSES WITH THE BEST SOFTWARE FOR YOUR SITUATION

Cole School Experts and Parker IT have partnered to deliver end-to-end software services designed specifically for schools that are time-poor and stretched for internal resources. We understand that with limited capacity, implementing or improving school systems can feel overwhelming. That's where we step in—making complex systems easier to manage, understand, and maintain.

With so many school-specific solutions available—and most designed to integrate—we help you choose and connect the right tools for your school. From planning and setup to ongoing care, we'll ensure your systems stay aligned, automated, and ready for what's ahead.

Backed by strong relationships with leading software providers across Australia, we tailor every recommendation to suit your school's needs. Whether you're introducing a new platform or refining your existing setup, we'll support your team through training, health checks, and reporting—keeping your systems working at their best.
